

On Ramp Pros and Cons

Pros & Cons of choosing On Ramp

Everything has Pro's and Con's. Internet presences no exception. The question is whether a particular package pro's are what you are looking for, and whether you don't care about the con's. ProConProfessional business card imageYES Company name in email addressYES Web site for business cardYES CheapYES Least amount of your timeYES Helps new customers to find you noEducate customers noSet customer expectations noUseful site to customers minimal

On Ramp does not have any of the bells-and-whistles a web site provides, nor does it get customers calling you up, but it also doesn't have the investment. And it gives your business cards a professional, stable image by having your company's email address and web site address.
